Central Section News

The Central Section IMSA will be holding our Annual Certification Conference during the week of March 6th to 10th 2017 to be held at the Double Tree by Hilton at 200 McDonald Dr Lawrence KS 66044
See page 2 for class information.

The following individuals were nominated to serve in the respective office for the term 2017-2018; additional nominations can be made by any member of the Central Section and must be received by the Section Board of Directors by January 15, 2017, together with a letter of acceptance of the nomination by the nominee. Nominations should be submitted to the Section Board of Directors, at centralsectionimsa@gmail.com.

John Hightower, Delegate
Todd Lohman, Alternate Delegate
David Woosley, Secretary/Treasurer

Visit our new website: www.centralsectionimsa.org. The new website was created to modernize our format and improve the sharing of section news and information. There is a dedicated page for our annual conference, a new "about" page, and the addition of sponsor links.

We also have a new email address: centralsectionimsa@gmail.com.

Technical Sessions

March 7th and 9th 2017 the Central Section IMSA will be holding Technical Sessions. This is a good opportunity to get TARP points needed for your certification renewals.

There is no cost or fee for attending the Technical Sessions.

See pages 4 and 5 for details and sponsors

Central Section IMSA / KAUTC Meeting

We also would like you to attend our Annual Central Section IMSA / KAUTC Meeting to be held March 8th 2017 in Lawrence KS . This is a great opportunity to network with other organizations, vendors and contractors.

Section 2.0 Renewal Process

2.1 All current certification certificates are valid for a three (3) year period from date of issue. The expiration date of all current certifications can be found on the certificate's and certification card(s).

2.2 Options for Renewal. There are three options for renewal of IMSA certifications. Individuals may choose any one of the options. The renewal requirements must be completed prior to the expiration date of the individual's current certification's.

A. Educational Units

1. College/Technical/Vocational course work for minimum one (1) quarter or one (1) semester with a 'C' or higher passing grade. The course work must be directly related to the certification(s) being renewed.

2. Continuing Education Units (CEU). The training must be directly related to the certification(s) being renewed.

3. Technical Advancement Recognition Points (TARP). In order to use this option an individual must be a member in good standing of IMSA. Your Section Certification Chair or a TARP representative gathers and submits these earned points on your behalf, to the International Office for logging in a database. Individuals should also record these points on their personal logs.

4. Renewal Hours by Personal Log (Members and/or Non-Members). Individuals must complete a personal log or diary of their continuing education by documenting training and/or certification(s) received. The training must be directly related to the certification(s) being renewed. For the training to be valid it must be signed by one of the following: the speaker of a session, moderator of a class, supervisor or your IMSA Section Certification Chair. Personal logs may be downloaded from the IMSA Web.

5. Combination of 2, 3 & 4 above. For example: A combination of CEUs and TARP points may qualify an individual for certification renewal.

All educational units must be completed within the three (3) years prior to the certification(s) expiration date(s). All training documentation is subject to audit by IMSA's International Office.

All educational units must be completed within the three (3) years prior to the certification(s) expiration date(s). All training documentation is subject to audit by IMSA's International Office.

Each IMSA certification has a defined number of required educational hours based on the level and type of certificate as follows:

Traffic Signals, Signs and Markings, Roadway Lighting, Fire Alarm, and Public Safety Telecommunicator require a total of sixteen (16) hours of education.

Work Zone Safety and Flagging require a total of four (4) hours of education.

- Sixteen hours is defined as 1.6 CEUs, or 64 TARP points or 16 renewal hours.

B. Attending the Current Certification Course.

This option requires the individual to attend the current 16-hour certification course without taking the exam. Individuals will be responsible for documenting their attendance in their Personal Log and shall have it signed by the moderator. **BE SURE TO SIGN THE CLASS ROSTER AS IT WILL BE AUDITED.** You may **ONLY** use this option within “one year” prior to the expiration date. Please note: Traffic Signal III and Signs & Marking III courses will only count as 8 hours of training (16-hours of training is needed to complete the renewal process for these Level III programs.)

C. Higher Certification Level.

Achieving the next higher certification level in each specialty, will result in a new three year certification; therefore, renewal of your existing certification will not be necessary. For example: An individual with a current Traffic Signal Level I certification who passes the Traffic Signal Level II certification course will receive a new certification level which will be due for renewal three years from the date printed on the new certification.

2.3 Documentation. It is the certificate holder’s responsibility to submit documentation to the IMSA International office for renewal utilizing “Educational Units” including TARP points and Personal Log/Diaries. All required documentation and the appropriate fees shall be sent in one mailing to IMSA prior to expiration date.

2.4 Renewal After Expiration. For individuals with an expiration date on their certificate(s), if the certification is not renewed by the expiration date, the certification will lapse. The lapsed certificate holder will have one (1) year after the expiration date to reinstate their certification by documenting sixteen (16) hours of training through 2.2A or 2.2B. If the certification is not reinstated within one (1) year after the expiration date, the individual must renew through the normal certification process by taking the current certification exam at the highest level previously attained and paying the regular certification exam fee. The renewal fees do not apply to this method of certification; only the regular certification exam fees will be due. Retake of prerequisites will not be required. IMSA will not recognize any IMSA certificate(s) without an expiration date.

For those individuals without an expiration date on their certificate (s), they will need to follow the first renewal steps by submitting a Letter of Confirmation and renewal fee to the International office as outlined in Section 1.0 in the policy.

Renewal Fee Schedule

<u># of Renewals</u>	<u>Member</u>	<u>Non-Member</u>
1	\$40.00	\$60.00
2	\$70.00	\$90.00
3	\$90.00	\$110.00
4 or more	\$100.00	\$120.00
